

Meriden Commons II

Through a partnership with the developer, Pennrose Properties, MHA will begin construction in early 2018 of a 76 unit mixed-used, mixed-income property, Meriden Commons II, in Meriden's new Transit Center. This development will anchor development efforts in Meriden's Transit Oriented Development District, provide 76 units of high-quality affordable housing, chart a new course for public and supportive housing in the city's center and activate the State Street corridor with 7,500 square feet of ground floor commercial space.

In addition to providing convenient access to services and amenities in Meriden's downtown, Meriden Commons II, will be within walking distance of Meriden's Amtrak Center which offers rapid transportation to nearby job hubs in New Haven and Hartford.
